

**CPA launches discussion forum for health and social care professionals
implementing the Single Assessment Process for older people**

The Centre for Policy on Ageing (CPA) has launched a new discussion forum for health and social care professionals working on the Single Assessment Process for older people. Many practitioners expressed a need for a facility to aid further communication of ideas and share successful practice around the on-going implementation of SAP.

The Department of Health asked CPA to establish and host the forum, which is available at <http://www.cpa.org.uk/sap/forum>. CPA is encouraging practitioners to make use of this national network to exchange views, make announcements and add details of relevant events.

CPA is continuing to develop and update the SAP resource <http://www.cpa.org.uk/sap> to support an integrated approach to assessment and care delivery for older people. Practitioners are invited to send CPA learning and development materials or examples of good practice to share via the SAP website.
